A majestic country and the home of the single malt whisky. Scotland is well known for its abundance of amazing distilleries that produce some of the finest whiskeys in the world. There are 5 major regions that produce the most popular whiskeys that you see today.

The Malt Selection

The Lowlands

Often overlooked, the Lowlands of Scotland were once the engine room of Scotch Whisky production. In 1777 it was estimated there were over 400 illicit stills in Edinburgh alone

The Highlands

For many, the Highlands epitomize Scotland. Beautiful, rugged scenery wild and romantic, with some of the best hunting and fishing anywhere in the world, the Highlands will stir even the coldest hearts. One of the sparsest populated places in the British Isles, The Highlands were the perfect place to hide from the taxman

Speyside

A sub-region of the Highlands, Speyside is one of the most famous Whisky regions of the world, Speyside is as close to geographical perfection as a modern distiller can get.

An abundance of water, fantastic barley growing conditions, and most importantly an incredible infrastructure in the form of railways allowed Speyside to flourish and boom in the 19th Century

Islay

Far and away Scotland's most famous Whisky making island, Islay is known around the world for making robust, heavily peated whiskies loved by some and feared by others, yet there is a gentle side to this island as unpeated whisky has existed there since 1881
